

The Keystone, key to the Mysteries

26 July 2019

by Peter Dawkins

Haus der Begegnung, Seminarzentrum, Mühlenstrasse 2, 31812 Bad Pyrmont, Germany

An evening talk recounting and explaining the various stories, mysteries, symbolism and meaning of the Keystone in terms of soul initiation. The Keystone is the key to the Mysteries of life, just as it is the key to the construction of an arch, locking all the stones into position and enabling the arch to stay firm, steady and bear weight.

The talk will be given in English, with German translation.

This talk stands on its own and anyone is welcome to attend, but it also forms an introduction to the weekend summer school entitled 'The Keystone of the Mysteries', during which we will visit the Externsteine, the centre of the Exterland landscape zodiac, to find and 'raise' the metaphorical 'keystone' of the Exterland's hidden 'vault' and bring to light the mystery within.
