Secret Teachings of the Rosy Cross

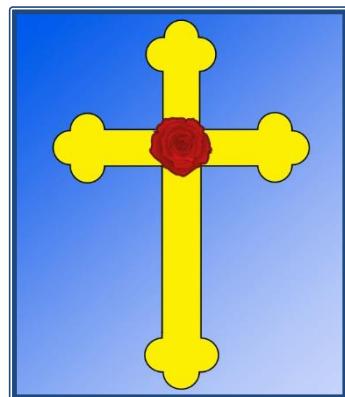

16-17 March 2019

Teacher: Peter Dawkins

*Haus der Begegnung, Seminarzentrum, Mühlenstrasse 2,
31812 Bad Pyrmont, Germany*

A weekend seminar led by Peter Dawkins exploring the secret teachings of the mystery schools and wisdom stream associated with and identified by the Rosy Cross symbol.

The Rosy Cross symbolises the profoundest mystery and wisdom of all that has ever been revealed to humankind. It is allied with other key symbols that form the initiatory language of all ages. The wisdom teachings originate from the Golden Age of Atlantis and its great Initiate, Enoch, who was Atlas, the philosopher-priest-king of Atlantis. Like all languages, it has evolved and adapted through time, as the understanding of the wisdom has developed, new revelations have been given, and its practice spread via the mystery schools and their initiates.

One of the wisdom teachings is that Time is the Great Initiator. At moments like the one we are in at present, as we move from one Great Age to another, we are all undergoing a great initiation, with all the tests and teachings required. The tests challenge, purify and, if necessary, destroy that which is not good, whilst the teachings enable us to rescue and raise all that is good in ourselves and in society generally—if we make the effort. Because of the time we are presently in, and the karma of the past, the challenges are immense, the tests are severe, the teachings are profound, and the effort required is huge. But the opportunity to create a new Golden Age exists; all we need to do is to take the opportunity and learn how to do it.

The workshop will be in English, with German translation.
